PROFILE

Front-end web developer who builds shipped, working products — including a live e-commerce platform with payment processing — while completing a B.Sc. in Logistics & Supply Chain Management. Self-taught in HTML, CSS, and JavaScript through project-based learning rather than formal CS coursework, with hands-on experience in state management, API integration, and deployment. Looking to bring that same self-directed execution to a front-end team.

TECHNICAL SKILLS

- **Core:** HTML5, CSS3, JavaScript (ES6+) — DOM manipulation, event handling, array methods (map, filter, reduce), destructuring, form validation
- **Tools:** Node.js, Express.js, Git & GitHub, VS Code, Bootstrap Icons, Font Awesome
- **Platforms & Services:** Supabase, Paystack API, Vercel (deployment & serverless functions)
- **Also developing:** Python, SQL (MySQL, SQLite)

PROJECTS

Hi7 Website (hi7wears) — E-commerce platform *Ongoing*

- Built a fully responsive product catalog handling 10+ products with real-time pagination, sorting, and filtering
- Engineered persistent cart and wishlist state across sessions
- Integrated Paystack payment processing and Supabase for order storage, with dynamic delivery-fee calculation across 20+ Lagos LGAs
- Deployed serverless on Vercel to keep API secret keys server-side, eliminating client-exposed credentials

Expense Tracker — Personal project

- Built full CRUD expense management with category-based filtering using filter()/reduce()
- Added form validation and locale-formatted currency display via toLocaleString()

Quiz App — Personal project

- Built a dynamic quiz engine with 10 questions, live scoring, and multi-step navigation using array/object state management

JS Notes App — Personal project

- Built a note-taking app with full CRUD and conflict-free active-edit state tracking

Random Quote Generator & Digital Clock — Personal projects

- Built a Clipboard API-powered quote tool and a real-time clock using setInterval()/padStart() formatting

EDUCATION

B.Sc. Logistics & Supply Chain Management (in progress) — Lagos State University *Year 3*

- Relevant coursework: Physical Distribution & Logistics, Warehouse Management, Global Logistics, Inventory Management, Road Safety Audits, GIS & Remote Sensing, Procurement Management

SOFT SKILLS

Problem Solving • Critical Thinking • Attention to Detail • Adaptability • Time Management • Independent Learning
